

# Managed Hosting

## SPECS

All of our plans come with generous amounts of CPU, IO and memory to run most websites up to 215,000 visitors each month. Think you may need more resources? Not a problem, our enterprise plans offer double those resources.

### Each Plan Includes:

- CPU: 1 Full Core
  - Memory: 2GB
  - IO: 5Mbit
- Max PHP Processes: 25
- Total Processes: 100
- MySQL Connections: 25
- Suitable for ~315,000 monthly visitors

### Pre-Installed Software:

- cPanel
- CentOS
- Site.Pro Web Builder
  - Apache 2.4.x
  - MariaDB
- Varnish Caching
- Litespeed PHP Caching
